

Dear Colleague,

The U.S. Department of Energy's National Energy Technology Laboratory (NETL) will sponsor an Environmental Controls Conference on May 16-18, at the Holiday Inn Select (soon to be renamed Crowne Plaza) Hotel, Pittsburgh, PA. Session 1 of the conference, "Selective Catalytic Reduction (SCR) and Selective Non-Catalytic Reduction (SNCR) for NOX Control" will be presented on May 16 and 17 and Session 2, titled "Sulfur Trioxide (SO₃)", will follow on May 18. Session 1 was formerly an independent SCR/SNCR conference, which was last held by NETL in October, 2003.

Since NETL is no longer sending a hard copy of the "Call for Papers," this will be your only notification for this conference. You are invited to submit an abstract for one or both conference sessions by clicking on the hyperlink below:

<http://www.netl.doe.gov/events/06conferences/env-control/index.html#CFP>

If you have any technical questions, please contact:

Pierina Noceti

Telephone: (412) 386-5428

Email: Pierina.Noceti@netl.doe.gov

If you have any logistics questions, please contact:

Pamela Stanley

Telephone: 304-285-4750

Email: Pamela.Stanley@netl.doe.gov

I am looking forward to seeing you in Pittsburgh.

Regards,

Thomas A. Sarkus

Conference Chair
